# CODELOCKS

## control + convenience

Codelocks designs and distributes innovative locks, from heavy duty and stylish mechanical locks to cutting-edge electronic and smart locks that use the latest technologies.

The locks can be used for a variety of applications, including doors, cabinets, lockers and enclosures. Access control is made easy, whether the application involves limiting building and room access or safeguarding confidential or hazardous materials.

Convenience is at the heart of Codelocks products, which are designed to be user-friendly and give you complete control over who has access. The locks are cost-effective, easy to fit and program, can be retrofitted and do not require complex wiring or external power. Programming options include remote code generation, audit trail and code free options, along with a variety of other functions to suit your needs.

Innovative technology plays an increasingly important role in enabling smart lock features. For example, with NetCode you can set temporary access codes remotely through our cloud portal. Our product innovation is bringing the convenience of access control to new markets, such as short-stay rental property, leisure facilities, music studios, schools and colleges, as well as traditional office buildings.

Our products are cost-effective, easy to fit and program, suitable for new installs and retrofits. We offer full access to expert technical advice and customer support and our products are available through a number of channels including direct web sales, locksmiths, installers, major resellers and OEMs.

## KitLock

### by Codelocks

KitLock by Codelocks is a convenient and stylish alternative to traditional key-operated locker locks. Cabinets and lockers in any setting, including gyms, leisure centers, schools, hospitals, data centers and offices can be opened using a keypad code, eliminating the inconvenience of coins and keys.

### ACCESS CONTROL
Control + Convenience is at the heart of all our products.

### SMART THINKING
We strive to create innovative solutions, not just locks.

### DESIGN + DELIVER
High quality products, designed in-house and delivered globally.

### FIRST CLASS SUPPORT
We provide hands on, expert sales, marketing and technical support.
