# TERMS AND CONDITIONS

## CONDITIONS AGREED BY BOTH PARTIES

### A. Acceptance, Modification.

Acceptance by Buyer of delivery of the goods indicates acceptance by Seller and Buyer of the Warranty and Terms and Conditions herein. Any additional or different terms proposed by Buyer shall be deemed objected to by Seller without need of further notice of objection and shall be of no effect nor in any circumstances binding upon Seller. No provision of these Terms and Conditions shall be deemed waived, amended, or modified by either party unless such waiver, amendment or modification be in writing signed by a duly authorized signatory of the party against whom it is sought to enforce the waiver, amendment or modification.

### B. Cancellation.

This sale cannot be canceled except upon terms that will compensate Seller against loss and not unless written approval of said cancellation has been obtained from Seller.

### C. Claims.

- (1) Buyer is deemed to have accepted the Products unless written notice of rejection is given within a reasonable time, which is agreed to be within three (3) business days after receipt. Failure to make such claim within the stated period shall constitute irrevocable acceptance and an admission that the goods fully comply with terms, conditions, and specifications.
- (2) Claims of late delivery are barred unless made prior to receipt of Products and the receipt of any Products shall constitute a waiver of any claim that they were received late.
- (3) No return of Products will be accepted by Seller without a Return Material Authorization number (RMA#), which will be issued at Seller's sole discretion. Returned Products should be in original shipping cartons and be complete with all packing materials. A complete description regarding the nature of the returned goods must be included with all returned Products.
- (4) Custom programmed or custom printed cards or tags are not returnable. Stock items returned for credit must be pre-approved by Seller and must be assigned a return material authorization number. These Products must be in their original packaging.

### D. Delivery and Title.

Subject to Seller's right of stoppage in transit, delivery of the Products to a carrier shall constitute delivery to Buyer, and risk of loss shall thereupon pass to Buyer, however title shall remain with Seller until Buyer makes payment in full under the contract. Products invoiced and held by Seller for any reason shall be at Buyer's risk and expense. Delivery route shall be at the discretion of Seller unless specifically designated by Buyer.

### E. Price Fluctuations and Product Specifications.

Prices quoted are in effect for thirty (30) days from date of quotation after which time they are subject to labor and/or material cost fluctuations. Prices and product specifications are subject to change without notice. **Please Note: We are watching the recent tariff policy and the direct implications on costs. Currently we are absorbing some of the costs but should they change dramatically we will need to reflect them in our prices.**

### F. Governing Law.

The laws of the State of California shall govern this sale.

### G. Taxes/Freight.

Unless otherwise agreed in writing, the amount of all transportation charges from Seller's location and all taxes or other charges now or hereafter imposed by any governmental authority upon the sale, purchase, resale, delivery, manufacture, production or possession of the Products specified herein, which may be paid by Seller or for which Seller is liable, shall be paid to Seller by Buyer in addition to the purchase price of the Products.

### H. Payment of Invoices.

When Secura Key grants an open account, payment is due within the terms set for the account. If payment is not received within that term, a finance charge of 1.5% per month will be assessed on the unpaid delinquent balance. In the event payment is not made in a timely manner and additional orders are received or are in process, Secura Key may place the account on hold pending receipt of all amounts due.

### I. Advice.

If technical advice is offered or given in connection with the use of any Products it will be given as an accommodation to Buyer and without charge and Seller shall have no responsibilities or liabilities whatsoever for the content or use of such advice.

### J. Installation/Training.

Buyer acknowledges that no installation, training, or contracted education is contracted for or purchased under the terms of this contract unless specifically agreed in writing. In the event that Buyer receives any training from Seller with respect to the Products, then, in that event, such training is personal to the person receiving such training, and Buyer acknowledges that any person receiving such training may not be capable of operating the Products.

### K. General.

- (1) This contract contains the entire agreement between the parties and supersedes any prior or contemporaneous oral or written agreements or communications between them relating to the subject matter hereof.
- (2) This contract may not be assigned, modified, or cancelled without Seller's prior written consent, and any attempt to assign, modify or cancel it without such consent shall be absolutely void.
- (3) No delay or omission to exercise any right, power or remedy accruing to Seller upon breach or default by Buyer under this contract shall impair any such right, power or remedy of Seller, or shall be construed as a waiver of any such breach or default. All waivers must be in writing.
- (4) In the event any of the provisions hereof shall, for any reason, be held void or unenforceable, the remaining provisions shall remain in full force and effect and shall control.
- (5) Any provisions of this contract prohibited by the law of any state shall, as to said state, be ineffective to the extent of such prohibition without invalidating the remaining provisions of this contract.
- (6) It is agreed that in the event of a dispute between the parties, for any reason connected with the purchase of the items mentioned in this contract, or in any way related thereto, the parties agree to submit the controversy for decision to the American Arbitration Association to the office located in Los Angeles County, CA.
